3. HAZARDS IDENTIFICATION:

Cresol red may be harmful by inhalation, ingestion, or skin absorption. EDTA or Tris may be irritating to eyes, skin, mucous membranes or upper respiratory tract. Ingestion of magnesium chloride can cause stomach pains, vomiting, or diarrhea.

4. FIRST-AID MEASURES:

In case of eye contact: Immediately flush eyes with large amounts of water for at least 15 minutes. Call a physician.
In case of skin contact: Immediately wash skin with soap and large amounts of water. Wash contaminated clothing before re-use.
In case of ingestion: If patient is conscious, give water, milk, or milk of magnesia. Call a physician if needed.
In case of inhalation: Remove to fresh air. If not breathing, give artificial respiration. If difficulty with breathing, give oxygen. Call physician.

5. FIRE-FIGHTING MEASURES:

Extinguishing media: Dry chemical powder or appropriate foam.
Extinguishing media NOT to use: None are known.
Special exposure hazards: May emit toxic fumes of carbon dioxide, carbon monoxide, nitrogen, phosphorus, hydrogen chloride, and hydrogen gas under fire conditions.
Special fire-fighting equipment: Wear self-contained breathing apparatus with full-face piece operated in positive pressure mode. Wear protective clothing to prevent contact with skin and eyes.
6. ACCIDENTAL RELEASE MEASURE:

Personal Precautions: Wear self-contained breathing apparatus and full protective clothing.
Environmental Precautions: None are known.
Cleaning Method: Ventilate area. Neutralize spill with sand, soda ash, or lime. With clean shovel, carefully place material into clean, dry container and cover. Remove from area. Hold for hazardous waste removal. Flush spill area with water.

7. HANDLING AND STORAGE:

Handling
Information for safe handling: Ensure good ventilation/exhaustion at the workplace.
Information about protection against explosions and fires: With appropriate handling and storage no special measures necessarily.

Storage
Requirements to be met by storerooms and containers: Store only in the original container.
Information about storage in one common storage facility: Store away from foodstuffs.
Further information about storage conditions: Store in cool, dry conditions in well sealed containers.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION:

System design: Safety shower and eye bath are recommended.
Respiratory protection: Not necessary if room is well ventilated.
Hand protection: Wear compatible chemically resistant gloves.
Eye protection: By appropriate application not required. Avoid contact with the eyes.
Skin protection: Wear laboratory coat.

9. PHYSICAL AND CHEMICAL PROPERTIES:

PCR-Mix:
Form: liquid.
Appearance: Clear
